Gray Matter

2011

Wake Forest University
School of Medicine

In dedication

Dr. William Applegate

Dr. William B. Applegate came to Wake Forest in January of 1999 to be Chairman of the Department of Internal Medicine. His remarkable leadership abilities and his steadfast commitment to the well-being of students and faculty were evident from the first day, and these were among the attributes that catapulted him into the office of Dean of Wake Forest University School of Medicine in April of 2002 (he also took on the responsibilities of President of Wake Forest University Health Sciences in 2008).

Dr. Applegate is recognized nationally and internationally as a remarkable physician and leader. He has served as chair of the Board of Regents of the American College of Physicians, the nation's largest physician specialty professional society. He has been president of the American Geriatrics Society. He has been repeatedly named as one of America's Best Doctors. He has been one of our leading medical scientists.

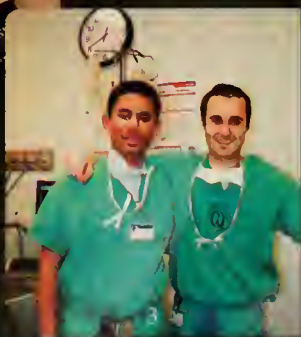

His humanistic attributes put Dr. Applegate in a league of his own. He is a model for excellence, a strong advocate of the power of the doctor-patient interaction, and a living symbol of Wake Forest's motto, "Pro Humanitate." He has been described as a man who is gentle in demeanor, soft-spoken, well-spoken, shy, self-effacing, open, sincere, modest, highly intelligent, insightful, curious, comforting, caring, sensitive, sensible, supportive, and generally marvelous!

Dr. Applegate is the quintessential healer and humanist, a man who leads, educates, and inspires all whose life he touches with the generosity of his own spirit of caring and courage.

Dr. Tinsley Anderson

Wilmington, NC

"Tact, sympathy, and understanding are expected of the physician, for the patient is no mere collection of symptoms, signs, disordered functions, damaged organs, and disturbed emotions. He is human, fearful, and hopeful, seeking relief, help and reassurance. To the physician, as to the anthropologist, nothing human is strange or repulsive. The misanthrope may become a smart diagnostician of organic disease, but he can scarcely hope to succeed as a physician. The true physician has a Shakespearean breadth of interest in the wise and the foolish, the proud and the humble, the stoic hero and the whining rogue. He cares for people."

Dr. Tinsley Harrison
